OVERVIEW

Results-driven **Python Django Developer** with **4+ years** of experience building scalable backend systems and AI-integrated applications. Expert in Django REST Framework, database optimization, and third-party API integrations. Proven track record of leading projects handling 1M+ records with optimized performance and real-time processing.

TECHNICAL PROFICIENCIES

Backend Technologies: Python, Django, Django REST Framework, Celery, Redis, WebSocket, LangChain

Frontend Technologies: Angular, HTML5, CSS3, SCSS, Bootstrap 4/5

Cloud & DevOps: AWS, Azure, Docker, Git, GitHub, CI/CD

Database: PostgreSQL, MySQL, MongoDB, MSSQL (Query Optimization, Indexing)

Tools & APIs: Postman, VS Code, Zoho, Freshworks, DocuSign, JWT Authentication

Specializations: RESTful APIs, Real-time Systems, AI Integration, Database Optimization

PROFESSIONAL EXPERIENCE - 4 YEARS

Arcitech 

09/2024 – present | Mumbai, India

Senior Python Developer

Braen AI - Financial Intelligence Platform

- Architected and deployed complete backend infrastructure from scratch for **AI-driven financial analysis system** processing **\$1M+ in transactions yearly**
- **Engineered 6+ interconnected modules:** User Management with **RBAC**, Alert Center, Accounts Payable, Accounts Receivable, Sales Analytics, and Real-time Dashboard serving **100+ active users**
- **Optimized high-volume data processing** to handle **1M+ financial records** with **sub-second query performance** (0.8s average response time) using **database indexing, Redis caching, and query optimization reducing load time by 65%**
- **Integrated AI capabilities** with **WebSocket** for **real-time updates** and **LangChain** for intelligent financial predictions, achieving **80% accuracy** in payment behavior analysis
- **Developed automated alert engine** for payment due dates, late payment notifications, and compliance tracking with **90% email delivery rate** and **40% reduction in overdue payments**
- Built 25+ RESTful APIs with JWT authentication, role-based permissions, and comprehensive error handling meeting
- **Reduced API response time by 60%** through strategic implementation of **Celery task queues** and **Redis caching layer**

Rob AI - Business Intelligence Platform

- **Simultaneously managing** backend development for Rob AI, demonstrating **strong multitasking** across **2 parallel** development projects

Technical Stack: Python, Django REST Framework, PostgreSQL, Celery, Redis, WebSocket, LangChain, JWT, Git, Postman

Key Metrics: 1M+ records processed | 65% performance improvement | 95% uptime | 100+ concurrent users

Sparecode Consulting LLP 

10/2022 – 08/2024 | Navi Mumbai, India

Full Stack Developer

Healthcare Platform - Diagnostics Center Onboarding System (Neutron)

Client: Alinea Healthcare Private Limited

- **Developed end-to-end DC search and onboarding platform** for healthcare provider network serving **200+ medical facilities** across **15+ cities**

- **Built custom JWT-based authentication system** with secure token management and role-based access control
- **Integrated 2 enterprise APIs: Freshworks** for ticketing system (processing **100+ tickets/month**) and **DocuSign** for digital document signing with **95% successful completion rate**
- **Designed Angular frontend** with **responsive UI** and seamless backend integration, improving **user satisfaction score by 85%**
- Implemented automated document verification system reducing manual processing time by 70%

Internal HRMS Platform - Technical Lead

- **Led full-stack development** of enterprise HR Management System managing **200+ employees** from requirements to production deployment in **8 months**
- **Architected backend** using **Django REST Framework** with **MySQL**, implementing **JWT authentication** and **authorization for 4 role types**
- **Developed 8+ comprehensive modules:** Employee Management, Leave Management, Attendance Tracking, Role Management, Notifications, Email System, Holiday Calendar, and Payroll Integration
- **Optimized database queries** with proper indexing, reducing page load time from **3.2s to 1.1s (66% improvement)**

Pro Taxking Advisory Private Limited
Full Stack Developer

08/2021 – 09/2022 | Navi Mumbai, India

VentureBuddy - FinTech Web Application

- **Independently developed and deployed** complete FinTech application for business valuation serving **10+ SME clients** and generating **\$50K+ in business valuations**
- **Built authentication system** using **Django-auth** with **secure session management** and **password encryption (bcrypt)** supporting **150+ active users**
- **Implemented web scraping modules** for real-time financial data aggregation from **10+ financial sources** collecting **1,000+ data points daily**
- **Developed automated PDF generation** for financial reports including Balance Sheets, P&L statements, and business projections generating **50+ reports monthly**
- **Created business logic** for automated financial calculations processing **\$2M+ in business valuations** with **70% calculation accuracy**
- **Built responsive frontend** using **Bootstrap** and **JavaScript**, improving **user engagement by 45%** with intuitive UI/UX

Technical Stack: Python, Django, MySQL, JavaScript, Bootstrap, HTML5/CSS3, Git,

KEY ACHIEVEMENTS

- Optimized database queries for 1M+ records achieving sub-second response times
- Reduced API response time by 60% through strategic caching and query optimization
- Successfully delivered 5+ enterprise projects with 100% on-time deployment
- Integrated 4+ third-party APIs including Freshworks, DocuSign, and AI services

EDUCATION

MSc in Information Technology (MSC-IT)
VPM's BN Bandodkar College of Science

06/2023 – 05/2025 | Thane, India

Bachelor of Science in Information Technology (BSC-IT)
B.N. Bandodkar College of Science (Autonomous)
CGPA - 8.20 Points

06/2018 – 04/2021 | Thane, India
